Art. 12.14 Special Stage - Start procedure (all SS, except SS 13/16)

Special stages commence from a standing start, with the car placed on the starting line. The electronic start system will be clearly visible to the crew from the start line and will display a countdown clock and a sequential light system.

The procedure is as follows:

- 39 seconds before the start - red light switches on
- 30 seconds before the start - starter points to the countdown clock
- 10 seconds before the start - red light blinking
- 5 seconds before the start - yellow light switches on
- START - green light switches on
- 20 seconds after the start - green light switches off and red light switches on

A fals start, particularly one made before the starting signal has been given, will be detected by a photocell.

Art. 12.15 Media Zones (FIA RRR 2012, article 25.7)

A media zone will be established prior to the time control Regrouping IN (TC 3A,6A, 8A, 13A, 17A, 18A). The procedures within the media zone will be according to FIA RRR 2012, article 2.19, 25.7, 40,2

Art. 12.16 On-Board camera tape exchange points (FIA RRR 2012, article 25.8)

There will be no additional OBC tape exchange points, however it will be allowed to exchange the tapes in the media zone and in the regroupings according to the FIA RRR 2012 article 25.8.

Uwe M. Schmidt
Clerk of the course
